> THERE have been three fires in the Western district since yesterday evening. The first occurred at 7.15 p.m., whom a matshed at Kennedy Town, the property of Mr Tsang King, contractor, was demolished, the damage amounting to about \$100. At 11.60 there was an alarm of fire at 140 Third Street, a wooden partition having accidentally got ignited. The services of the fire brigade were not required, however. The most serious of the three occurred at 2 80 this morning, when fire broke cut at No. 528 Queen's Road West, a store containing sapan wood, sandalwood and paper. The place was completely guited. The damage, which is estimated at \$11,000, is covered by insurance in the Hongkong Fire Insurance Co's. office. The fire in this case is supposed to have originated from mats having fallen on a kerosene lamp.

At Government House, at 2 p.m., on the H.E. Vicoroy Li Hung Chang and Eni Pan, publishers are still intenton doing what hey investigate thoroughly the cause of the character of the publication. The volume is rebellion, and to have all the various getting to be a very bulky one; with the local officials concerned in whose jurisdic- additions that have been made this year it tion the disturbances occurred to be runs to over cleven-hundred-and thirty cashiered on the ground that they had pages, exclusive of maps &c. To the series neglected their duty in not taking means of maps and place has been added a plat of to mip the rebellion in the bud, and in fail. Hanoi; the descriptive portions of the volume ing to take sufficient defensive measures have been revised and considerably extended, and there have been added directories for Nanking, and Nicolsjawak. The aphabetical list of foreign residents in the Far-East has been brought up to date and is printed in single instead of double column. The change to double dolumn was made last year and in reverting to the former method we think the publishers have done well. On the whole, the Chronicle and Directory for 1802 will be found even more useful than its predecessors have been.

WE note from the Peking Gazette that the Honam troops raised by the late Chang-yao during the Triping rebellion, have been placed under the control of Li Hung-chang. They consisted originally of two comps of cavalry, of 20 men caoh. The horses of one cavalry cump have been sold since, and the men hate been transformed into infantry. One of the seven camps of infantry, forming Chan-yno's body-guard, has been dissolved, and the men have been distributed amongst he six other camps. There were a number of veterans, too old or weak for further service; 492 of them were discharged, and provided with passage money to proceed home. There appears to be no provision whatever made for a pension, and it is not to bewondered at that discharged soldiers should form the main bulk of candidates for diagerous secret societies, and foment disconlent .- Shanghai Mercury.

That neverthless there exists an irresistible underement of loyalty towards our Queen and Royal Family which, upon occasion, sweeps over the hearts of the people from one end to the other of Lesser and Greater Britain.

That the gradual growth of popular power alongside gonarchical institutions, which has turned the British into an immense Republican Monarchy or a Monarchical Republic, has strengthened the innate love and steem of the people for the Royal Family.

That the high ideal of family life at Court set up by he late Prince Consort, which has been silong and worthily maintained by the Quen of England, and so gracefully uphell by the Princess of Wales, has done more for monarchy at Home than any other influence that could be

LOSS OF THE 'NAMCHOW. STORY OF THE DISASTER.

GRAPHE ACCOUNT BY A SURVIVOR. This moming H.M.S. Porpoue, which was despatched North by Admiral Richards to make inquiries on the spot regarding the loss of a seamer off Capchi Point on the morning of the 8th instant, arrived with some survivors of the ill fated ateamer which it was ascertained to have been the Namehow. These included the supercargo and some of the members of the crew. The official report of Captain Borr's inpuirles has not unfortunately been made public, so that all those interested are still without paperly authenticated information. Datale, however, have been obtained from other sources, and these are sufficient to throw light upon the disastor, its came, and the subsequent events on board the Namehow from the breaking of the haft to the foundering of the

From the statement of one of the survivors it would appear that the appalling disaster is not without some discreditable features. It was on Wednesday night that the Namehow left Hougkong having on board despatches, Clasp); and in the subsequent 411 souls aliteld. THE LABUK PLANTING CO. LTD. An extraordinary general meeting abareholders of this company was held day, for the purpose of considering the insucial position of the company. Hon. P. Ryrio presided; and there were also present Mesars F. Henderson, R. Lyall B. Gomes, C. A. Ozorio, F. A. Gomes. J. P. Braga, A. S. Gomes and J. H. Cox

The following memorandum was anb mitted to the meeting?-The General Managers wish to lay before you a few remarks in connection with the Company. As regards the 1880 Crop of Tobacco; be-

raised under the usual difficulties appertaining to such ventures in a new country. We at one time were led to expect that the yield would be 2,000 peculs for the 250 iolds caltivated, and that the price then honed for would have been about f. 1.50 a 1.70 per & kilo. equal to about \$96 \$109 per pecul, which on 2,000 pecul would nave left a handsome profit. We helieve bubico Planters do not generally expect to make a profit on the 1st and 2nd years' crops. Experience has to be paid for in all new ventures. The weight of the 1800 Crop actually shipped was close upon 800 peouls, being 3 pecula and 20 catties per field on the area cultivated by this Company, Of this out-turn 350 reculs sold at about \$43 per pecul, the belance of the ahipment-450 peculs-sold at about 100 Dutch Cents per 1 kilo 7 The 1890 Crop thus netted about \$10,000.00 or \$50 a pecul on the whole crop. The less on 1889/90 Working Account will thus be unfortunately large.

THE RICE TRADE OF THE BAST. It would seem from reports which reach ns from neighbouring states that we have not been singular in the unfortunate experience we lately have had in the matters of our food-supplies. The intelligence from Netherlands India, from Cochin-Chiness French possessions, and also from same matter; and the outlook for those who depend on the rice-fields of the East can hardly be said to be a good one. The news from Siam is particularly bad. Not only has the Siamese cultivator had to contend against an unfavourable season, like unfortunate the Siamese has had to suffer extensive less from the ravages of noxious insects. In Upper Burms come parts were similarly demaged, as we had occasion recently to point out. But from all accounts sources have furnished no information, only it would seem that the losses of our cultivators were pultry compared with those the Siamese have had to endure. The particular depredator would appear to be a small worm, which attacks the young pad? dy-plant, and so almost at starting nips in

It is unfortunate for Siam that these mistrade; and Siamese troubles happening contemporaneously with ours will not do our rice-trade any good, as it must be some possibly also Japan might regain some of have all exports of rice, and if all did as well as Burmah usually does, they would be colonial policy of the Spaniards has almost killed the export trade in rice of the Philippines. Time was when these islands produced enough of the grain not only for home cousumption but for large exports to neighhas fallen off so greatly that Luzon has now up shortcomings. The rice-lands are said not prove remunerative the growers are giving up their pursuit in largely increasing numbers year, by year. Even a protection change for the better, while prizes and bounties appear to have fuller both flat and sooner or later, from the disaffected in unprofitable. The annual imports of rice Shantang and the adjoining provinces. If from Saigon and Hongkong now exceed The recent failure of the crops in Java

But whenever difficulty is felt in any neighbouring state, a call is made on Saigon; and that call is invariably met most satisfactorily, thus showing that on occasion arising Saigonese rice. exports can very readily be expand. ed. Up to recent times, the same was the case with Siam. These two are the greatest rivals of our rice-trade, and lately their joint exports exceeded a million of tons. the Siamese exports had been ingreasing steadily for some years past, the rice being sent to Hongkong, Singapore, Europe. Chiua and even to Bombay, which in 1890, took some live tons of the grain. But the two British colonies of Singapore and Hongkong have always been the chief markets for Siam rice. In 1890, the last year for which we have authentic reports. the percentage of the experie of rice to these two colonics exceeded 92. Of course much of this was owing to the deficient rice crop of Japan, which took Siam rice through Per Mesasgeries Maritimes steamer Hongkong very largely. But both field and 'garden' rice advanced remarkable To in price and quantity for export to Europe. It is therefore particularly unfortunate that the present mufortunes of Siam should cour. In the beginning it was estimated that the exports of this year would amount to a little more than half of that exported the previous year. Now, however, that such gloomy reports of the effects of drought, coupled with the ravages of insects, are received, it has become very doubtful if oven the previous low estimate will be reached. The general average crop of Sism is said to be 1,200,000 tons, and of this quantity some 70,000 tons are said to be consumed in the country itself, leaving for export, in a good year, such as in 1890, about 500,000 tons. The actual exports of 1890, however, came up to 479,660 tons. Taking this as the basis for calcula-Per P. and O. steamer Cart age, from tion, the probable quantity available for exports this year should be 200,000 tons. a figure so low that for four or five years now it has always been exceeded. There is sufficient mill-power in Bangkok for the conversion of all this grain, and recently two mills were added to the twenty-five which had existed previously. IT RECALLS THE BLIZZ RD. In Murch, 1888, the great blizzard in merics almost extinguished the city of New York. The like of it was never before sees. The snow completely stopped all local traffic. Not a horse or a whoel could move. All the telegraph lines leading into the city were prestrated, and for two or three days the people of Boston and New York communicated with each other by way of London by means of the Atlantic cables. Thus messages intended for persons three hundred miles distant were sent six thousand miles, crossing the

ocean twice. An incident which recalls this experience to the writer's mind happened a short time ago here in England. Suppose we let the gentleman interested tell his own story. He says: 'I have suffered more or less from indigestion and dyspepsia all my life. I had a bad taste in the mouth, pain after cating, a poor appetite, and sour stomach. and my mouth constantly filled with a watery fluid. No matter what I ate, howover light, it disagreed with me and gave me pain. I had fulness of the chest, and pain at my side, with a miserable low, dull feeling. From time to time I consulted a doctor who gave me medicines, but they did very little good. The doctor said that the coating of my stomach was disordered. and the mucous membrane was luflamed. In 1877 L received a pamphlot from New York telling of a medicine called Mother Seigel's Curative Syrup, and of the extraordinary cares it had effected, so I procured a supply, and after taking the first I felt better, and by the time I had taken four bottles more, I was completely cured, and have been in good health, as regards the indigestion, over since. Having studied the practice of herbs for many years, I was in the habit of treating paople for erysipelas and other complaints, and was frequently consulted by people in the district, so ofter my remarkable oure, I was so impressed with the merits of Syrup, that I produced a large supply of the medicine, and recommend it to all who were suffering, and people came from far and near for it. I may mention that on a Sunday my house was beseiged by miners from Coal Pit Heath, and others from a. distance. On every hand I heard nothing but the loudest praise and of the cures it effected, and the fame of this medicine was spread throughout the West of Eng- Yokulama, on SATURDAY, the 25rd land with no other advertising than one January, 1892, at 1 p.m., connection being party telling mother of the benefit they made at Yokohama with Steamers from Kansas City, Mo., Omaha, had derived from this wonderful medicine. Shanghai and Japan Ports. I wish every one to know of this, and if by publishing this statement it will help others who may be suffering as I wat, it

will afford me pleasure." The letter from which the foregoing is an extract is signed Moses Godwin, Old Sodbury (Sodbury), Glos, and is dated April 9th, 1891, He is a farmer.

The reader will notice that while the headquarters for the sale of Mother Seigel's Syrup is universally known to be in London, by a strange chance Mr God. win's first information concerning it came from America, three thousand miles away, which recails the incident of the American blizzard above narrated, and also shows that the fame and psefulness of this medicine extends to all civilised countries.

Mr Benjamin Edgerton, grocer and provison dealer, Plat Lane, Whitell, Whitchurch, Salop, says: While living with Mr Roberts, Fens Wood Farm, I first began to feel a dull heavy weight at my side, and noticed a bad taste in the mouth with foul stomach and uncomfortable feeling after eating. I had no appetite, and when I sat down to the table I could not it badly to be reduced to such a weak Niagara Folle, N.Y. Buf.) state.
